TWINCOIN – Targeted Worldwide Integrated Nominated Coin

PRESENTS:

NEW GENERATION OF CRYPTOCURRENCY

TWINCOIN – Targeted Worldwide Integrated Nominated Coin

TWIN Currency – Targeted **W**orldwide **I**ntegrated & **N**ominated **C**ryptocurrency as the internal ICO process has been initiated by HTI Foundation in its Technoparks and Special Economic Zones, as absolutely new version of ICO process for secure investments on cryptocurrency markets makes easier the decision of governmental, public and private investors around the world than today.

Professional experts of HTI Foundation, Investment Committee of the HTI Foundation together with the Governments and Regulators will carefully check and duly approve each project to be placed into Technoparks and Special Economic Zones which going to be funded using ICO process.

Joint financial and technical control of the investment process will fully prevent the option to use money for untargeted use and scams using targeted cryptocurrency for specific projects under clear business-plan, focusing on a control on quality and quantity of products in order to provide the full security for all kinds of invested assets of investors which will be the participants of the projects in HTI's Technoparks and Special Economic Zones.

TWINC – Targeted **W**orldwide **I**ntegrated & **N**ominated **C**ryptocurrency is opening the big Family of combinations of different targeted crypto-instruments of Technoparks and Special Economic Zones around the world, for funding of new projects and development of new technology. TWIN to be used as the main equivalent of each internal cryptocurrency on the international market of HTI's Members.

TWINC – is by Gold backed cryptocurrency that connects all related internal cryptocurrencies of HTI's Technoparks and Special Economic Zones around the world to the most sure worldwide asset like Gold. The Gold Reserve of HTI Foundation is placed with AA rated international banks.

TWIN Currency may be the real “twin” of local national currency to be used on all territory of the country as the legally approved cryptocurrency together with fiat money but in digital form of money into local and international non-cash operation that may open the window into “big world” for each small and big country in the world.

TWIN Currency can support the implementation and development of the TALENT of Nation as the new generation of cryptocurrency states that “**Talent WINS**”.

TWINCOINS' family of currencies sorts its internal currency structure by separated areas for example like:

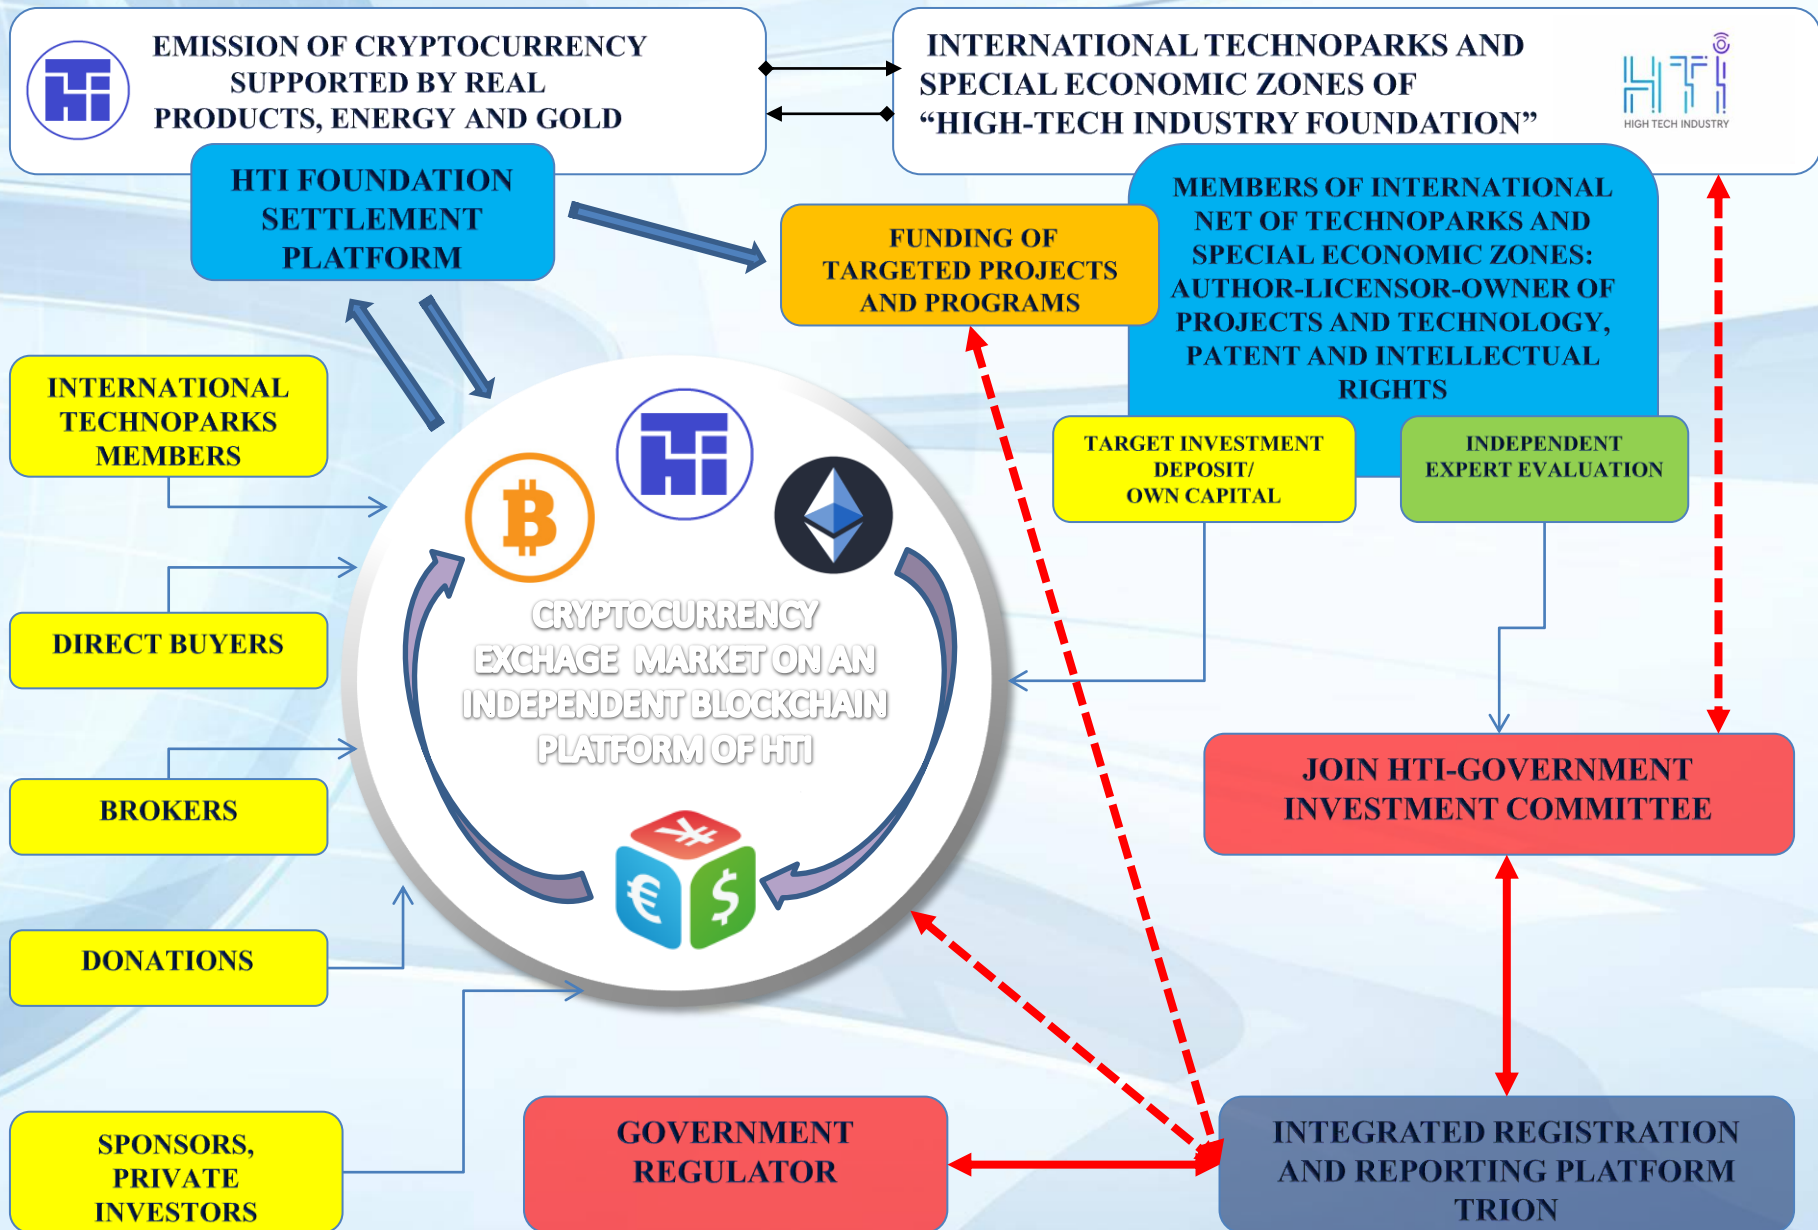

(M) - for medicine and healthiest mentioned industry

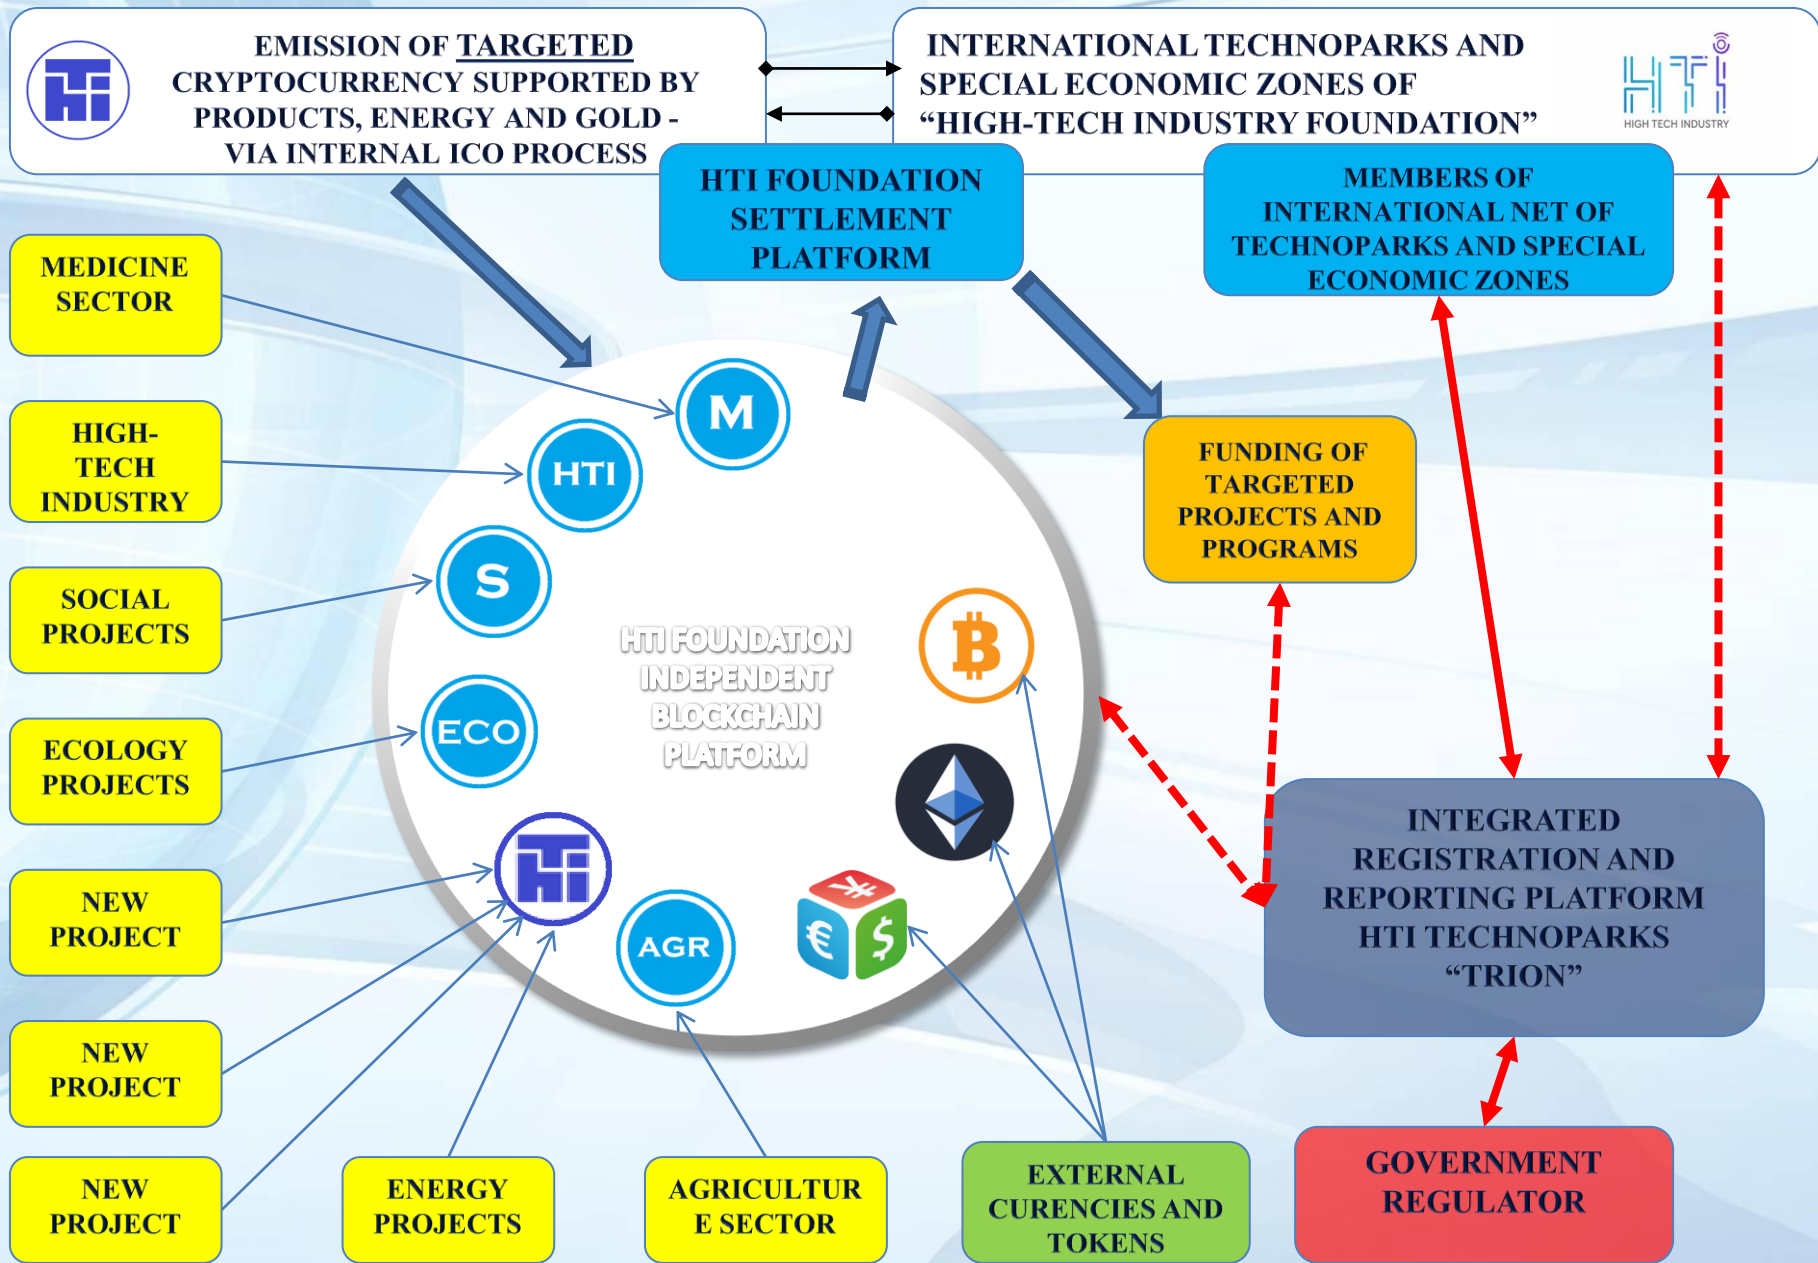

(S) - social and humanitarian sectors

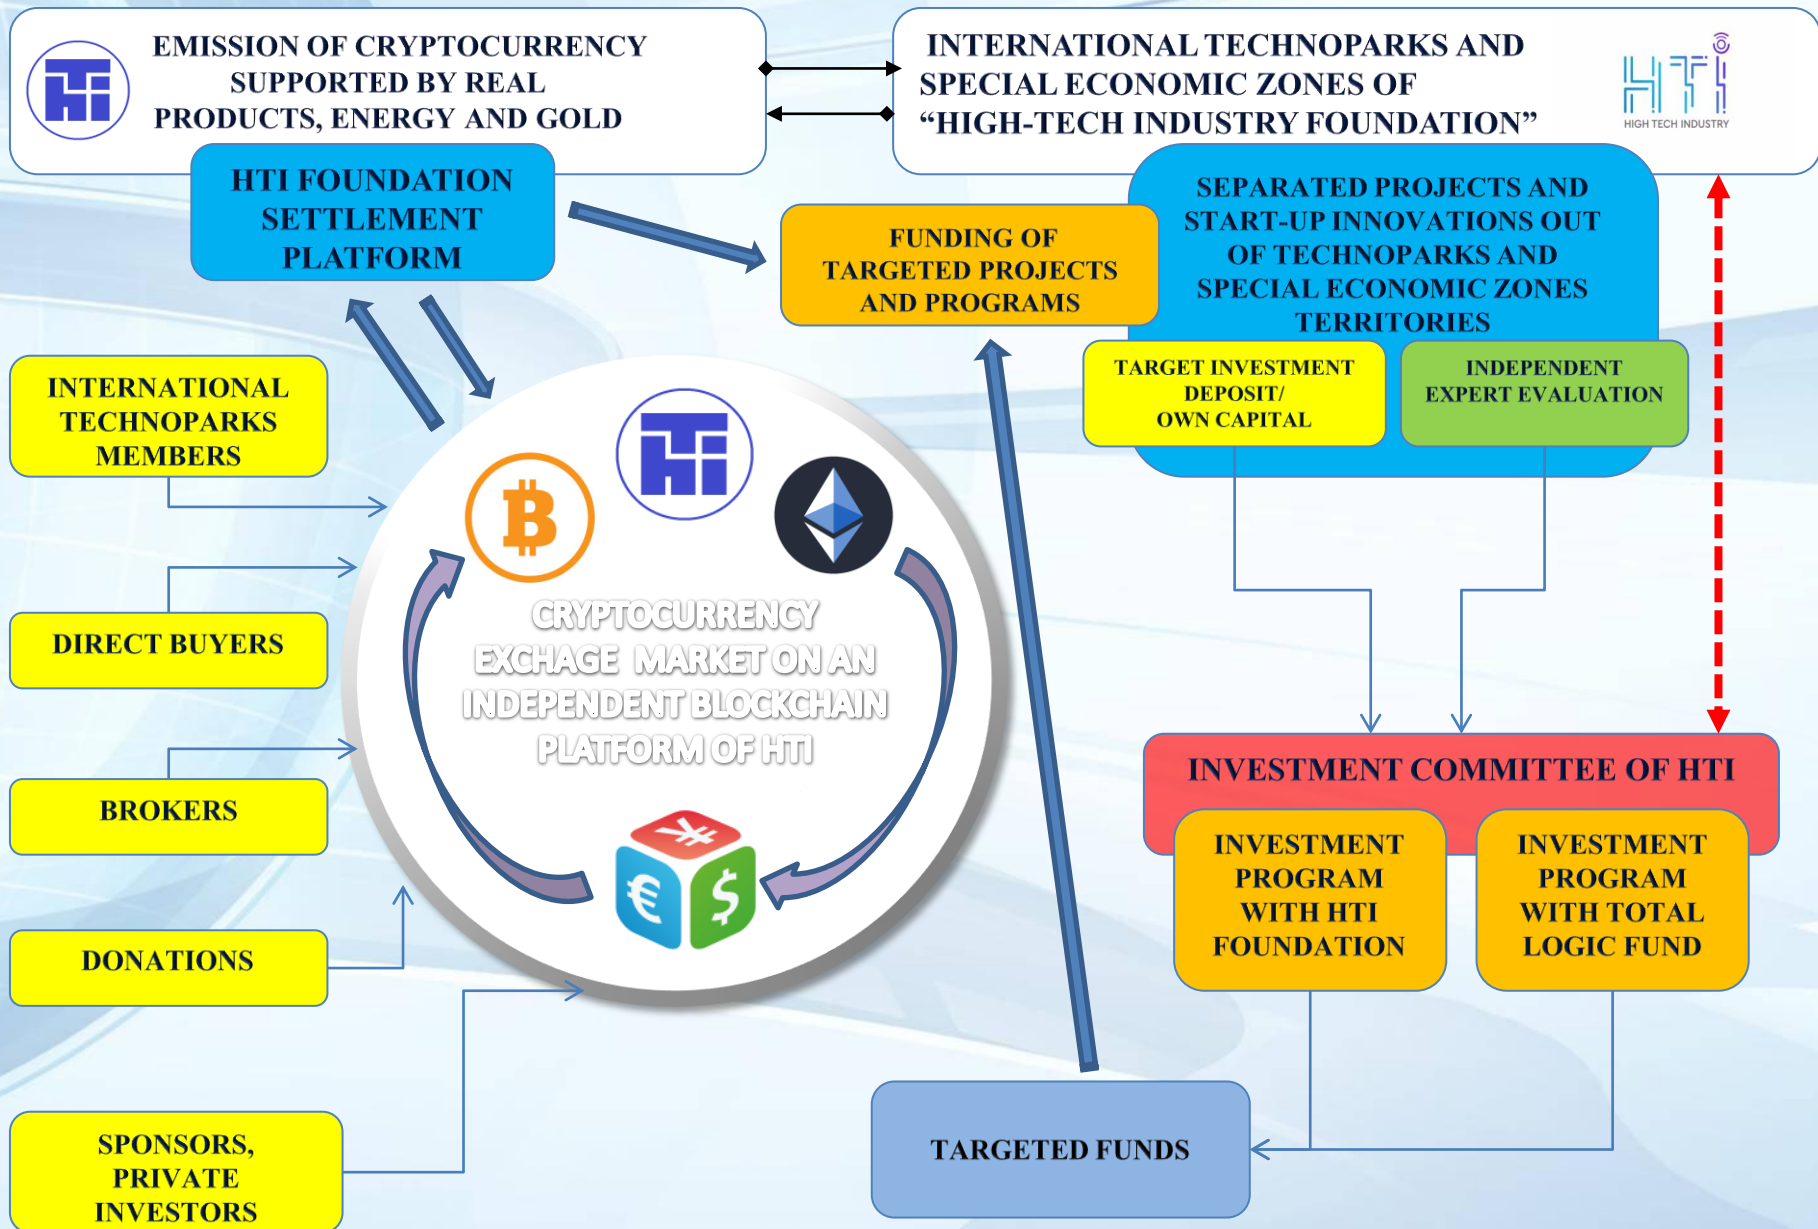

(HTI) - backs the electronic and other high-tech technologies

(CVL) - for energy projects and so on in order to form the professional international community and initiate the integration efforts of different countries into a joint mutual development.

TWINCOINS' family of currencies makes possible the internal development of each country based on an first-class hard assets like a Gold with an external and unbudgeted origin without any additional emission of local national currency.

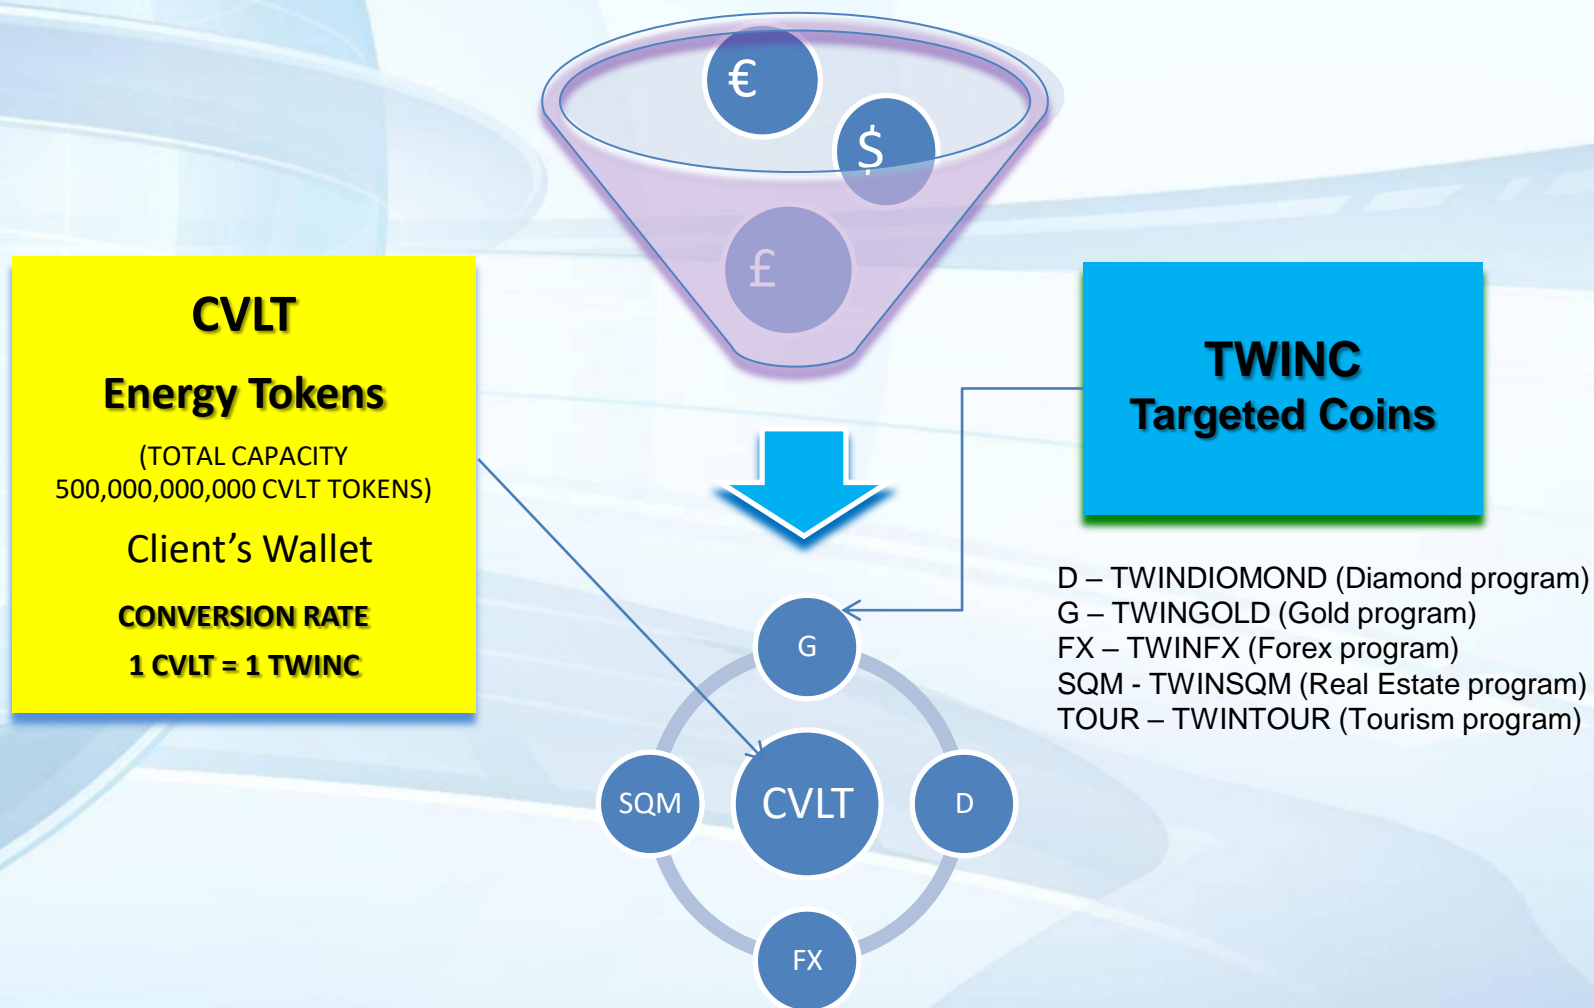

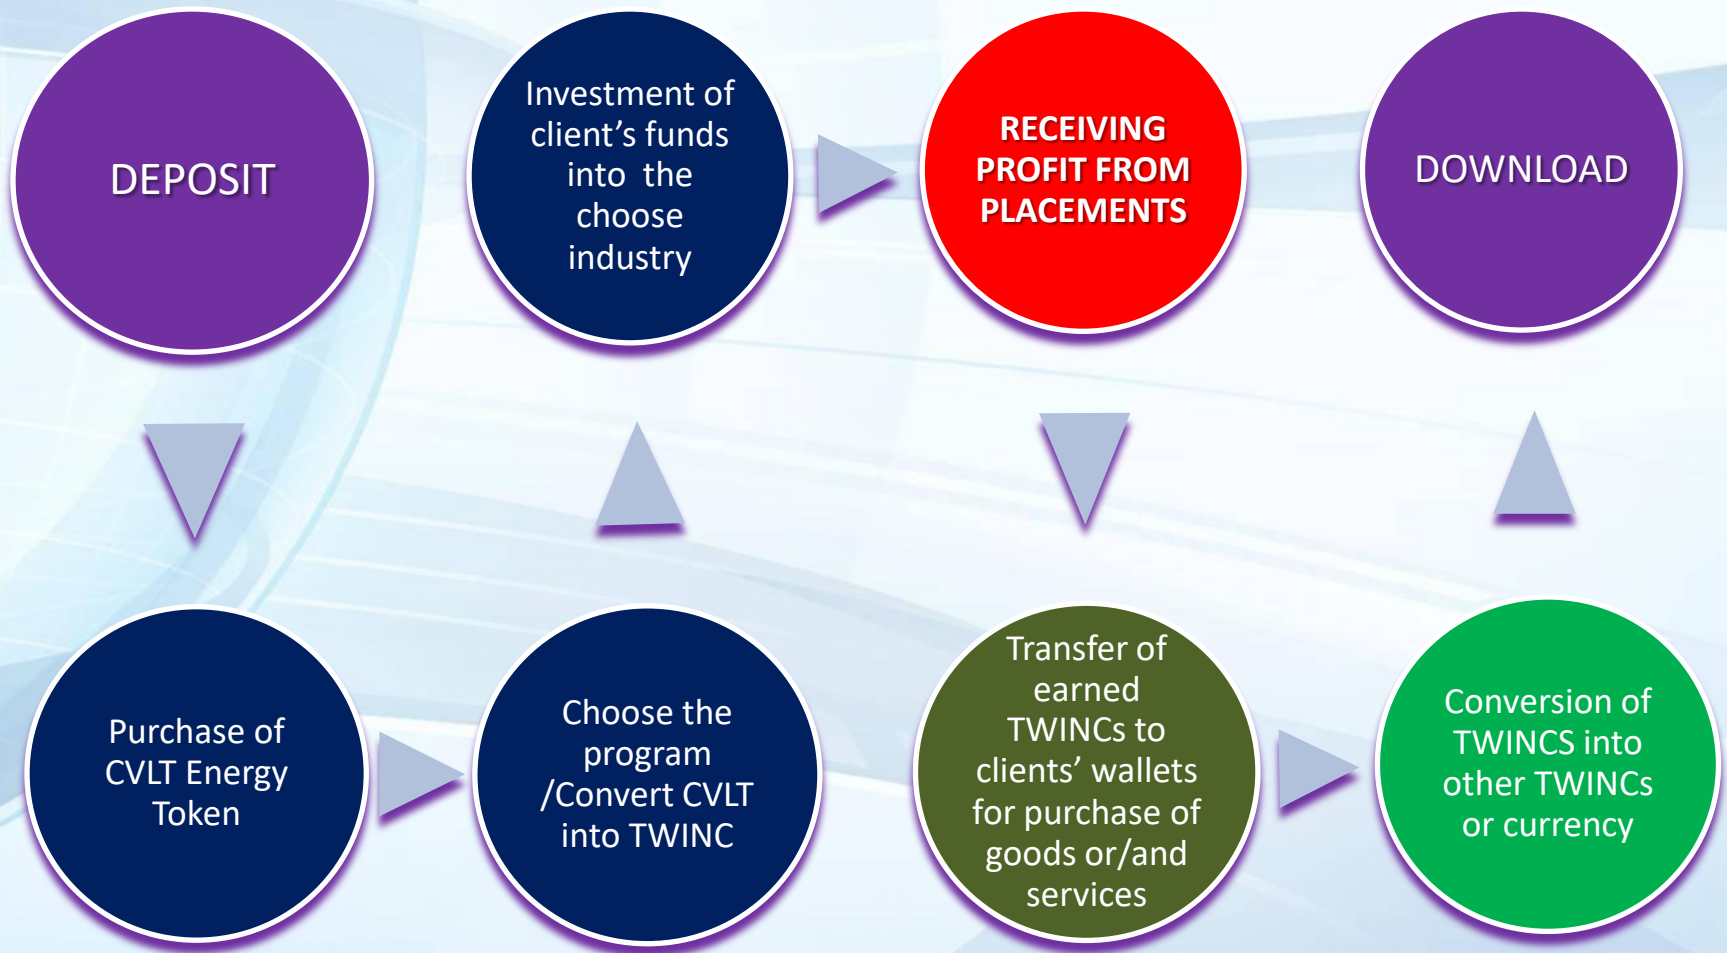

TWINCOIN FAMILY

Targeted **W**orldwide **I**ntegrated & **N**ominated **COINS**

HOW IT WORKS

STEP BY STEP PROCEDURE OF CASH TURNOVER

THE MAIN FACTORS THAT NEEDED GOVERNMENTAL ACTIONS FOR SUPPORTING OF GROWING OF INNOVATIVE ACTIVITY IN COUNTRIES-PARTNERS

- Creation of legislation of reasonable and effective financial and legal mechanisms of activities and a regulatory and legal framework (governmental, regional, municipal) of High-Tech Industry Parks and Special Economic Zones that mediate the accumulation, distribution and targeted use of investment resources, both budgetary and extra budgetary, international integration among of involved parties, organizations and governmental regulators.
- Realization of effective and practical mechanisms for new relations between HTI and program's relevant related countries, thru an acceptance of registration, design , construction and operation of worldwide system of special economic zones including partnership among international high-technology parks.
- Creation of integrated programs to support innovations, which is an important missing link in the development of innovation activities in each region.
- Support of HTI initiatives as an internal regulator and lead-partner, performing the role of an information and analytical center, providing support and successful implementation of innovative projects:
 - Implementation of new technologies in area of health treatment and medicine, non-pollution technologies and green energy.
 - Solving of humanitarian and social matters on a joint market of involved countries.
 - Managing own internal crypto-currency of HTI Foundation with further direct investments for funding of various projects and global cross bordered social and ecology programs in exchange for green energy products like synthetic gas, biodiesel and electricity in accordance with its energy equivalent (1 BOE).
 - Creation of the necessary quantity and quality of services that provide real practical assistance to innovators in the implementation of projects.
 - Use by the subjects of innovation activity, of the architecture information interaction that meet their needs in terms of communication, the volume and quality of the information services provided
 - Increase demand for innovative projects, products and services from industrial companies, venture funds and other potential consumers.
 - Creation of effective financial instruments ensuring the participation of investment companies, banks, venture funds, governmental, public and private investors in financing of innovative projects.
